We live for Purple & Gold

## In this issue:

- A glimpse of the student life
- Careers under 2-years
- Beyond the Op with the Dean
- Study Tip
- SODC Events

# THE ROOT OF THE MATTER: STEP INTO A BRIGHT FUTURE

Not everyone wants four more years of lectures—and honestly, you don't have to.

If you're looking for a career that's hands-on, respected, and in demand, our Dental Hygiene and Dental Assistant – Level I & II programs could be exactly what you're looking for.

## Why students choose this path:

- With our hybrid approach, you'll train in real clinic settings while learning theory online
- Programs designed to get you career-ready fast
- High demand for dental professionals across Canada
- Work in a field where you help people feel confident every day

## A Day in the Life

Imagine starting your day working directly with patients, learning skills like teeth cleaning, x-rays, and assisting in procedures. No two days are the same—and you're always building real experience.

## Start Sooner, Graduate Sooner

Our programs are designed so you can move from student to working professional in less time than traditional degrees.

### Your future starts here.

Whether you see yourself as a Dental Hygienist or Dental Assistant, this is your chance to build a career that's stable, rewarding, and flexible.

Apply now or book a college tour to see it for yourself. **Call us at 905 304 4706**

# DOCTOR OF DENTAL SURGERY

4-YEARS

**DENTAL SCHOOL OF YOUR CHOICE**

# Beyond the OP

**Q: If a prospective student is choosing between schools, what would you say is the biggest reason to choose your college?**

**A:** One of our greatest advantages over other schools is that, as a privately owned institution, we can make decisions efficiently without having to navigate multiple layers of approval. This flexibility allows us to respond quickly to the needs of our students and staff. We are also proud to offer a highly personalized educational experience, providing individualized support and services that students may not find elsewhere. The close-knit environment at our college fosters strong, meaningful relationships between students and staff, creating a supportive and welcoming community. As a result, students receive attention throughout their educational journey, and we consistently exceed expectations by delivering an exceptional learning experience that helps students feel valued, supported, and prepared for success.

**Q: What do students often say they love most about their experiences here?**

**A:** Students share that our faculty are knowledgeable, supportive, and approachable. They report feeling well prepared for their board examinations and future careers, while receiving guidance every step of the way. Many also value the strong connections they build with their peers, forming lifelong friendships and professional relationships.

**Q: What makes your dental college community unique and inclusive?**

**A:** The biggest thing about our college is that we promote and support multicultural ethnicity because I believe in equal opportunity for everyone. We experience this every year from all of our programs. Dentistry is a huge opportunity for every one.

Dr. Roland Estrabillo, DDS  
Dean and President

## Testimonials from SODC Alumni

"Yes, studying for boards is important - we all want that pass on the first try - but your client in your chair in the future needs your clinical skills to be top notch. You can read and study the theory outside of clinic - but while you're there, that's your textbook!"

-Sarah B.

“

"It's more than just cleanings, it's about trust, education, and creation of a space where patients feel cared for. I'm so proud to be part of a profession that continues to inspire and challenge me every day."

-Saron Y.

”

"The field itself is very fun, especially when you work with amazing coworkers! Hygiene is a field where you bond with coworkers and clients in the best way possible! I have formed many new professional relationships with clients and coworkers and they make work so much better!"

-Geety B.

”

"The comprehensive education I received at SODC was instrumental in my journey towards excellence in the field.

Transitioning into clinical hygiene, I found immense satisfaction in providing preventative dental treatments to my clients. There is nothing better than seeing a patient smile after a treatment and knowing I played a part in their health journey."

-Nav C.

"Embrace every opportunity to learn clinical skills, professionalism, and patient communication are equally important. Approach clinical requirements not as tasks, but as meaningful patient care experiences. Ask questions to staff freely and stay engaged with peers. Faculty at SODC are incredibly supportive and always willing to help."

-Bansi S.

# STUDY TIP OF THE MONTH

My biggest insight to help prepare for clinic and even theory is to remember that it is so important to share any concerns or worries to your clinic instructor so we can better support you! Also remember it is okay to make mistakes, as long as we learn from them. Lastly, ask for help!!!

**Gloria J, RDH**  
Dental Hygiene Clinical Instructor
